TERREBONNE PARISH HOME BECOMES THE FIRST HOME TO GO SOLAR

Renown Louisiana Doctor Joins the Movement to Conserve Energy

HOUMA, LA (January 19, 2010) – Dr. Brett Casey’s home in Houma, Louisiana is the first known home in Terrebonne Parish to have a solar power system installed. Akari Energy and its team of technicians from Lafayette, Louisiana began work on December 2, 2009 and the completed 7 kilowatt (kW) system passed inspection on December 7, 2009.

“What better way to give back to your neighbors than to help reduce pollution by consuming clean energy?” said Frank Molina, Chief Operating Officer. “Electricity from the sun is free and with the incentives available, the system is almost free, too.”

The State of Louisiana and the federal government offer incentives making it easier to purchase a solar energy system for a home or business. Dr. Casey and others like him can expect to save 30 to 40% on their monthly electric bill and experience a return on investment by the second year.

For his contribution to the environment and to the community, Dr. Casey is the recipient of the 2009 Akari Award. “I think that this is a fine example of how the government can stimulate industry,” said Dr. Casey regarding Louisiana solar incentives. “Our state has really stepped up to the plate, giving taxpayers a 50% tax credit in addition to the 30% federal tax credit. There is no doubt that this is the reason for the recent increase in solar energy system installation.”

About Akari Energy

Akari Energy is “The Green Energy Company for America” and provides services such as renewable energy solutions, hurricane preparedness and energy efficiency consulting to residential, commercial and institutional customers. Go to www.AkariEnergy.com for more information about available products and services.

The team of Akari Energy is comprised by Vance Nobe, Chief Executive Officer, Frank Molina, Chief Operating Officer, Lourdes Aguinaco, Director of Community Relations and other investors. For more information, go to www.AkariEnergy.com.
